During the last 8 years, in his most recent role as the Assistant City Manager for the city of Del Mar, Delin managed public safety, finance, water and sewer rates, human resources, risk management, solid waste and recycling, real estate, and leases and contracts. “Mark’s passion for the environment coupled with his extensive senior management experience and advanced education in environmental sciences will further the City’s achievement of its environmental initiatives. At the same time, his customer service ethic and willingness to serve and listen to the community will support the needs of all five communities within Encinitas and be an asset for the organization.”

Delin has a Bachelor of Science in Agriculture from the University of Illinois at Urbana-Champaign, a Masters in Plant and Soil Science from Southern Illinois University at Carbondale, and a Masters of Business Administration from the University of Missouri, Columbia.
